

HEXTIO

The **most effective clean air solution** for desktops and smaller spaces.

The **Hextio** is the smallest unit in our product range and covers areas of up to 20 sqm. The **Hextio** is ideal for sanitizing the air around a single person.

Once the air has passed through the unit and is sanitized, the directional hood at the top of the **Hextio** ensures that the clean air flows directly into the individual's breathing space.

USE CASES:

- Pharmacy counters
- Office desks
- or
- Any room smaller than 20 sqm.
